Drainage Project/Road Closure on Schedule

Director of Public Works Jeffrey McSpedden reported that the drainage project on the town's west side is progressing on schedule and, if the weather stays above freezing, should be completed in March of 2013. Below freezing temperatures prohibit the pouring of concrete and would delay that part of the project. The intersection of Turbeville and Point Vista will be closed for 6-8 weeks, beginning February 4, 2013, so plan your trips accordingly. Please use caution around the construction areas and keep an eye out for workers. Mr. McSpedden also reported that the Harbor Grove paving project has been completed. If you have any questions, or want to voice any concerns, call Public Works at 469-576-5094.

Michael Gividen, a resident of Hickory Creek, has recently joined the Hickory Creek Economic Development Corporation board. He was appointed to fill Place 2 and has been appointed until the term expires, in December 2014. Mr. Gividen is a retired real estate executive and has 27 years of experience in all aspects of commercial and government construction. We welcome him to the board and thank him in advance for his service to the town.
